#### Operation:

- **8:30 a.m. to 9:30 a.m.:** Reception: parents (or any other person authorized by them) must accompany their child(ren) to the premises of the leisure center.

*"This time is an important moment. Children, but also parents must feel welcomed. »*

- **9:30 a.m. to 11:30 a.m. :** Activities related to the educational objectives.
- **12 p.m. to 1 p.m.:** Lunch

It's a time when we enjoy being together and eating. The leisure centre has the privilege of having an equipped kitchen on site, a qualified team and a dietician who develops the menus. They work with local producers and fresh products.

This is why we will make sure not to waste food, and to taste all the dishes (children and adults). We don't force them to finish everything, but we encourage them to taste.

- **From 1 p.m.:** Rest/quiet time

### **Maternal:**

Nap for 3-4 year olds (**compulsory on the advice of the PMI**) and 4-6 year olds (depending on the child's state of fatigue). The children are accompanied to the nap room under the supervision of an animator. When they wake up, they are taken to the activity room. (Max 15h30 depending on the program)

*"Even today, most of us think of sleep as a cessation of activity, an oblivion in which we slip and nothing happens. However, it is exactly the opposite. It is in this phase that the child sorts the day's information, his brain grows and his immune system strengthens..."* In fact, **sleep is as essential to the child as being fed and loved.** »

### **Elementary:**

Quiet time, possibility to rest in a suitable place.

- **2:00 p.m. to 4:00 p.m. :** Activities
- **4:00 pm:** Snack

"The snack is composed and varied. (Bread, chocolate, cheese, fruit, compote, biscuit, brioche...) »
